DIRECTORY OF SERVICES 2008

...listing activities and services available at your local schools and in your local community.

EXTENDED SCHOOLS PARTNERSHIP

Introduction

Welcome to our first Extended Schools Partnership Directory of Services 2008.

Schools are changing. The government has said that by 2010 all schools should be “extended schools”. This means that a local group of schools should provide a range of services for the whole community, for example quality childcare, out of school hours activities, parental support, access to facilities including adult learning and a swift and easy referral to specialised support services.

This directory is aimed at providing some of that information to assist you in making choices for you and your family.

Schools offer many clubs and activities such as breakfast clubs, lunchtime activities, after school clubs and school holiday activities. Details for your local school are included at the back of this directory. Alternatively, you may contact the school or visit their website for more information.

Barton Stacey

Please refer to the separate information sheet at the back of this directory or contact the school for information.

Information for Parents

www.hantsfish.org.uk Hants Fish (Directory of Children's Services)
